

FIND AND NAME 5 SEA CREATURES IN THE NAUTICAL CYCLE.

Cycles

(A Read Aloud Story)

By Jeanne Poland
For Hudson-Catskill Newspapers

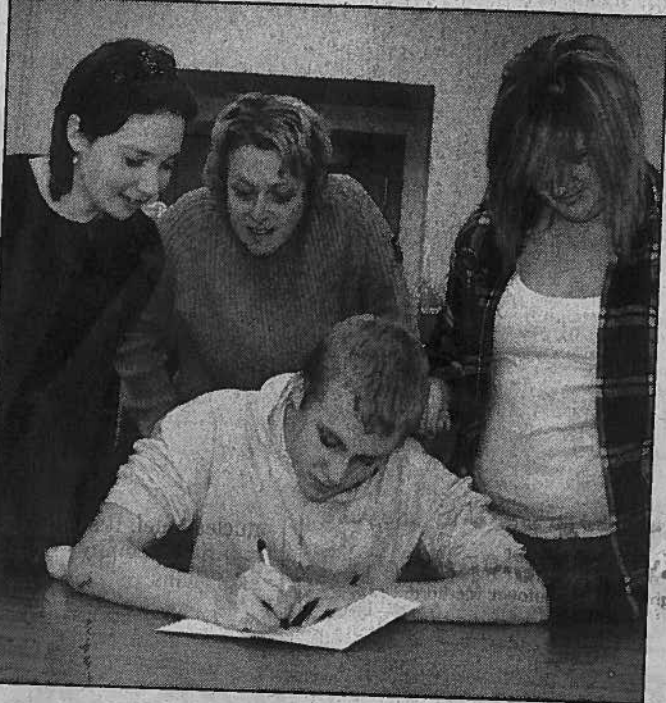

Interested in what endures.
Fly by night,
Sparkles, twinkles, dimples, wrinkles,
Cycles, which entwine and repeat in
eating, rotating,
ing around each other,

Expanding, shrinking, advancing, growing, reaching,
Seeking, returning.
Octopus tentacles, tricycles,
Muscles, bicycles, unicycles,
Rolling, rollicking reviews of riotous chuckles and frolics.
Reborn, renewed, entering cycles,
Rolling cycles.
(Read again and again.)

From East Greenbush to Afghanistan with love

Contributed photo
Tech Valley High School students are sending their love and good wishes to troops in the Middle East. Students signed a pair of Christmas cards and are mailing them to a location in Maryland where volunteers collect Christmas cards and send them to troops in Afghanistan and Iraq. TVHS Nurse Shellie St. Denis oversaw the TVHS effort after learning of it through a community group. Pictured above, from left, are Tech Valley High School Juniors Lisabeth Kelly from Ichabod Crane, St. Denis, Cody Rogers from Green Island and Mandi Jung from Coxsackie-Athens.
